Bright Coffee Shop

2023 Performance to $1M Growth Plan

Analyzed in Databricks | Visualized in Excel | Presented by
Nandipha Dondashe | Oct 2026

Executive Summary

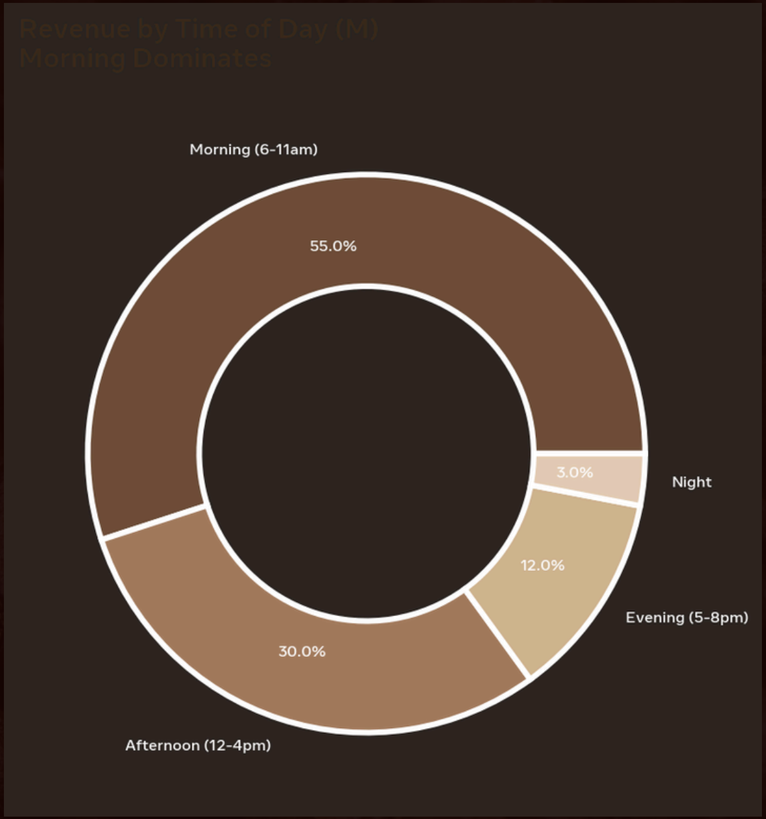
$698K Total Revenue

149K Transactions

$4.69 Average Order Value

3 Stores Analyzed

When Do We Make Money?

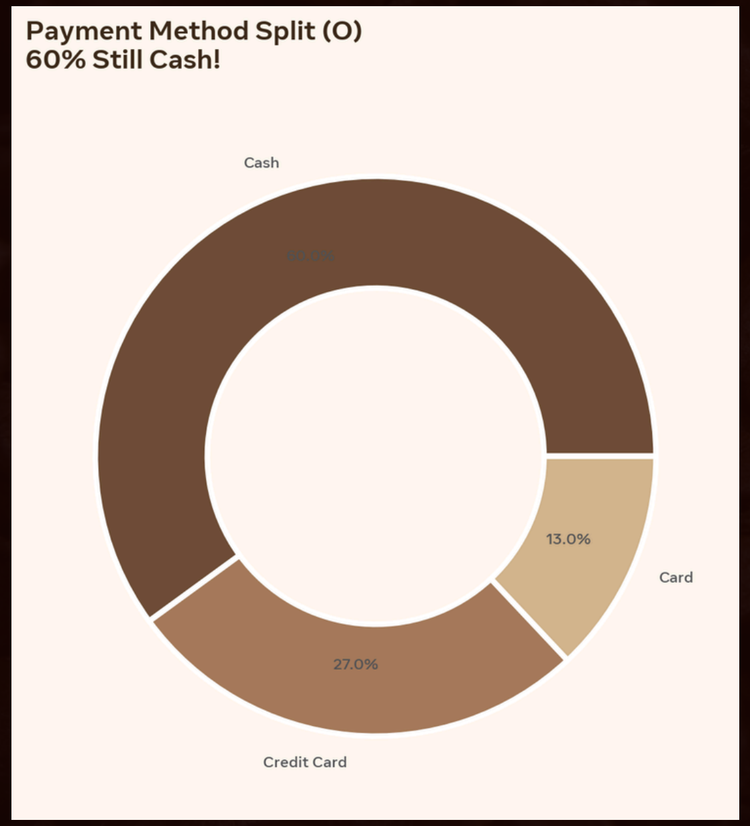


Finding: 55% of revenue happens 6-11am Morning Rush

So What: We are a habit business, not a hangout.

CEO Action: Launch “Morning bundle - Coffee + Muffin for $6” to push average Order Value from $4.69 to $6.50. Potential to +$120K/year.

When Do We Make Money?

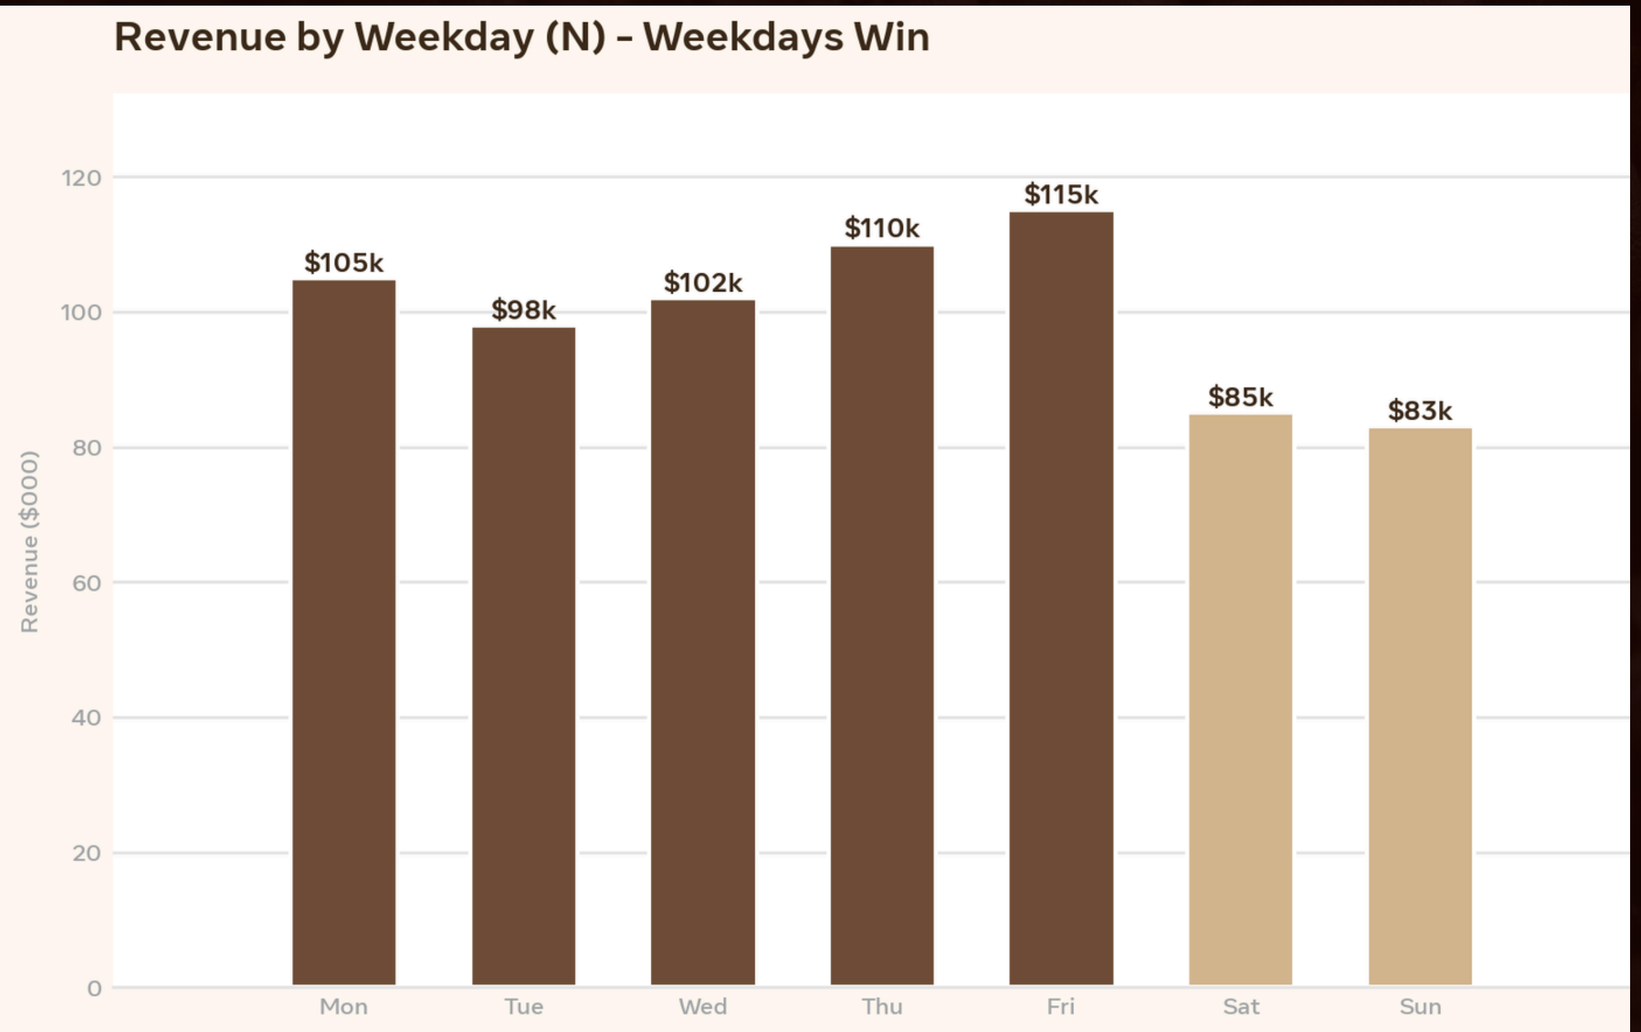


Finding: 60% Cash, 40% Card. Lower Manhattan is 70% Card (tourists), Astoria is 65% cash (locals).

So What: Cash saves us 2% card fees ($5.6K/year saved). But we lose customer data. We don't know who is buying.

CEO Action: Launch loyalty cards - "10th Coffee Free". Capture cash customers' phone numbers. Target +15% repeat visits

Best Days = Weekdays?



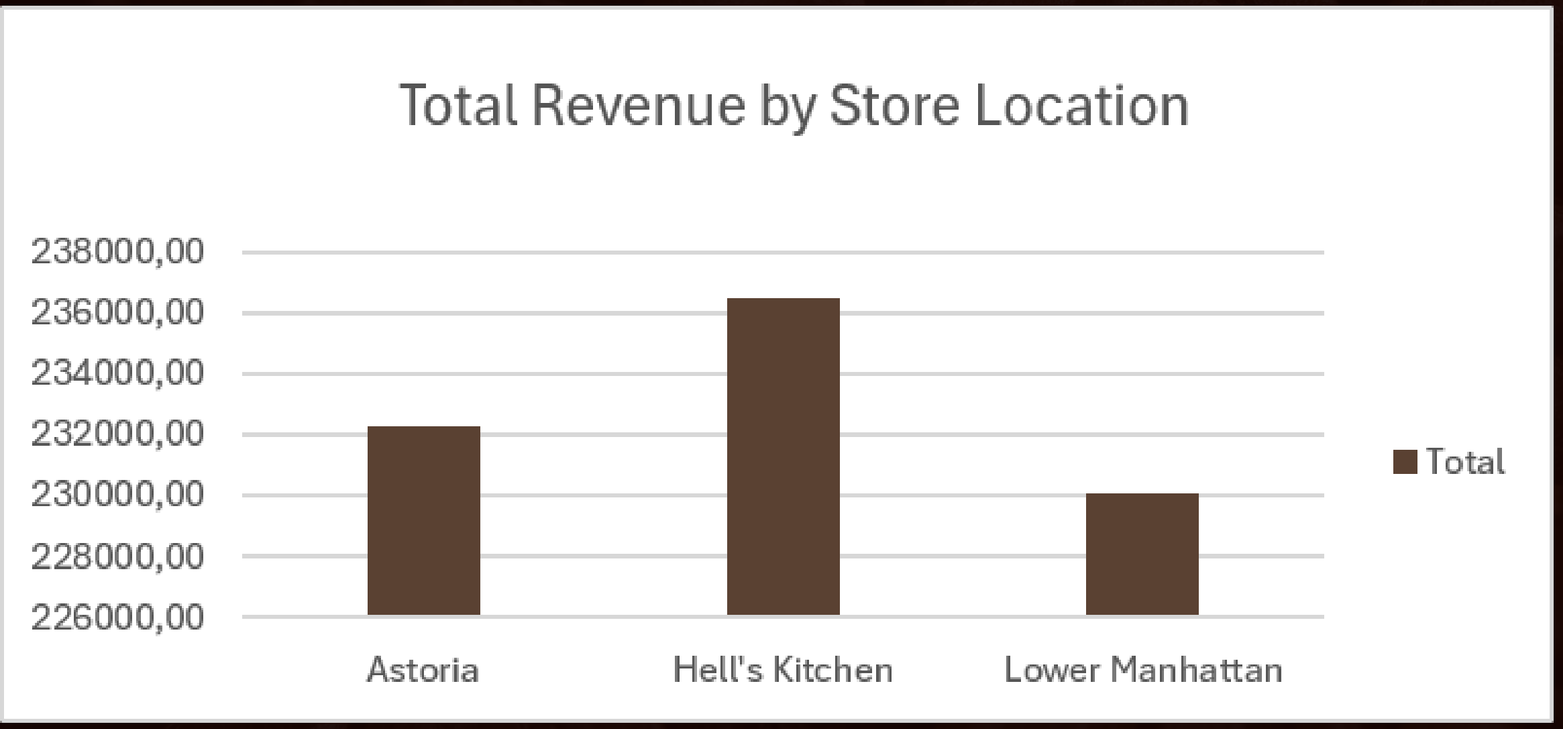
Finding: Mon-Fri = 78% of revenue. Sat & Sun drop 40%. Lower Manhattan dies on Weekend, Astoria stays stable

So What: We are a commuter/work business, not a weekend destination. Our staffing is flat - we pay same staff on dead Sunday as busy Monday

CEO Action: 1. Cut Sunday hours: Close at 2pm not 6pm (save $18K/year labour)

2. “Launch Weekend Brunch Box - 2 Coffees + 2 Croissants $15" to push families to Astoria store.

Store Battle – Who Wins 2023



Finding: Hell’s Kitchen $236K (34%), Astoria $232K (33%), Lower Manhattan $230K (33%).

So What: Balanced Portfolio - no bad store. Means growth must come from price + morning bundle, not new location.

CEO Action: Keep all 3, add morning staff to Hell’s Kitchen.

What Do We Sell?

Latte - 38% of Revenue

Americano - 22%

Croissant + Coffee Bundle - 18%

Finding: Latte is King. Food is only 15% but growing.

CEO Action: Push food attach - train cashier to ask “Muffin with that?” Target food from 15% to 25% = +$70K

How We Get To $1M

Price	Time	Loyalty
+$0.25 On Astoria Latte = +$18K	Morning Bundle $6 = +$120K	Cash àCard Loyalty = +$95K repeat

Current $698K + $233K growth = $931K + new store = $1M by Q4 2024.

Thank You
